

Residential Burn Permit Guidelines in Alpine County

December 30, 2023

This notice outlines the updated process and guidelines for conducting residential burning in Alpine County. This guidance supersedes historic practices of receiving a burn permit from the USFS. Developed in collaboration with CALFIRE, the USFS and Alpine County, this process aims to keep all parties informed and consistent in their approach to permitting residential burning in Alpine County.

Residential burning should be a secondary solution to the disposal of brush and other materials gathered while creating defensible space and reducing wildfire risk. The primary means of disposal highly recommended by Alpine County Sheriff's Office, CALFIRE, USFS and the Alpine Fire Safe Council is the use of the biomass pile at Turtle Rock Park or the green waste disposal dumpsters located in the Bear Valley and Kirkwood communities. These solutions have been put in place to provide a safe alternative to disposal of biomass material without the risk of pile burning. Recognizing that disposal at one of these locations is not always feasible and that CALFIRE allows residential burning across the state of California under specific conditions, the County allows for the practice of residential burning under the following conditions;

1. Obtain a burn permit from the CALFIRE website at [BURN PERMITS \(ca.gov\)](https://www.fire.ca.gov/burn-permits). Be sure to review the information on the website and understand the requirements for burning. Note that the Current Burn Status only applies to the general status in the County relative to fire restrictions. You must also confirm with the Great Basin Air Quality Board that it is a permissible burn day.
2. Contact the Great Basin Air Quality Control Board to determine if its an allowable burn day. This information is available for Alpine County on the internet at [PFIRS - Prescribed Fire Information Reporting System \(ca.gov\)](https://www.fire.ca.gov/pfirs) or you can call (916) 445-0745. Burning is only allowed on permissible burn days.
3. **For Eastern Alpine County only (excluding Bear Valley and Kirkwood)** - Contact Alpine County Dispatch at 530-694-2231 ext 0 to inform dispatchers that you plan to be burning at your address. You will be asked for your permit number, please be prepared to provide it.
 - a. Ignitions will be completed by 1:00 pm and pile(s) completely extinguished by 3:00 pm.
 - b. Pile(s) will be attended at all times with an adult on site where pile is located. Water must be available at the pile(s) as well as a hand tool (Shovel, McLeod, Pulaski)
 - c. Keep piles small and make sure the pile(s) are "dead out" and without any burning material at completion (3 pm).

For questions contact Alpine County Wildfire Project Coordinator Clint Celio at cclio@alpinecountyca.gov or call (775)-720-6534; or CALFIRE Assistant Chief Brian Newman at brian.newman@fire.ca.gov or call (530)-573-2321.
